NOTABLE VITAMINS & MINERALS

- **Bread flour (enriched):** iron, thiamin, riboflavin, niacin, and folic acid — standard fortification for most bread flour sold in the U.S.
- **Whole milk:** calcium, vitamin D (if fortified), and vitamin B12.
- **Egg:** vitamin A, choline, and additional B12 and selenium.
- **Butter:** a modest source of vitamin A.

This loaf's tangzhong keeps it soft and long-lasting without leaning on extra fat — butter here runs lighter than a full brioche, since a sandwich loaf still needs to slice clean and hold a filling.

*Estimated, USDA-derived figures — not a lab-verified nutrition label. Baked fresh,
no preservatives.*
